

IN THE UNITED STATES DISTRICT COURT  
FOR THE NORTHERN DISTRICT OF GEORGIA  
ATLANTA DIVISION

SYNCHVIEW TECHNOLOGIES, LLC,

Plaintiff,

v.

COMCAST CORPORATION; COMCAST  
CABLE COMMUNICATIONS, LLC;  
COMCAST CABLE COMMUNICATIONS  
MANAGEMENT, LLC; COMCAST  
HOLDINGS CORPORATION; COMCAST  
BUSINESS COMMUNICATIONS, LLC; and  
COMCAST OF CT/GA/MA/NH/NY/NC/VA/VT,  
LLC,

Defendants.

CIVIL ACTION FILE

NO. \_\_\_\_\_

**Jury Trial Demanded**

**COMPLAINT FOR PATENT INFRINGEMENT**

Plaintiff SynchView Technologies, LLC (“SynchView” or “Plaintiff”) files this Complaint for Patent Infringement against Defendants Comcast Corporation; Comcast Cable Communications, LLC; Comcast Cable Communications Management, LLC; Comcast Holdings Corporation; Comcast Business Communications, LLC; and Comcast of CT/GA/MA/NH/NY/NC/VA/VT, LLC (collectively, “Comcast” or “Defendants”), and states as follows:

## **THE PARTIES**

1. Plaintiff is a limited liability company organized and existing under the laws of the State of Georgia, having its principal office at 4725 Peachtree Corners Circle, Suite 230, Atlanta, GA 30092.

2. Comcast Corporation is a Pennsylvania corporation, with a principal place of business at One Comcast Center, 1701 John F. Kennedy Blvd., Philadelphia, PA 19103. Through its wholly owned subsidiaries, Comcast Corporation provides “Comcast” branded services, including Xfinity digital video, audio, and other content services to customers. Comcast also provides digital video recorders to subscribers to its Xfinity television services. On information and belief, Comcast Corporation, jointly with the other Defendants, develops the infringing Xfinity services and equipment and provides the infringing receivers to customers.

3. Comcast Cable Communications, LLC is a Delaware limited liability company with a principal place of business at One Comcast Center, 1701 John F. Kennedy Blvd., Philadelphia, PA 19103. On information and belief, Comcast Cable Communications, LLC is a subsidiary of Comcast Corporation. Comcast Cable Communications, LLC may be served with process in this action by and through its registered agent, C T Corporation System, 289 S Culver St,

Lawrenceville, GA 30046-4805. On information and belief, Comcast Cable Communications, LLC, jointly with the other Defendants, develops the infringing Xfinity services and equipment and provides infringing receivers to its customers.

4. Comcast Cable Communications Management, LLC is a Delaware limited liability company with a principal place of business at One Comcast Center, 1701 John F. Kennedy Blvd., Philadelphia, PA 19103. On information and belief, Comcast Cable Communications Management, LLC is a subsidiary of Comcast Corporation. Comcast Cable Communications Management, LLC may be served with process in this action by and through its registered agent, C T Corporation System, 289 S Culver St, Lawrenceville, GA 30046-4805. On information and belief, Comcast Cable Communications Management, LLC, jointly with the other Defendants, develops the infringing Xfinity services and equipment and provides infringing receivers to its customers.

5. Comcast Holdings Corporation is a Pennsylvania corporation with a principal place of business at One Comcast Center, 1701 John F. Kennedy Blvd., Philadelphia, PA 19103. On information and belief, Comcast Holdings Corporation is a subsidiary of Comcast Corporation. On information and belief, Comcast Holdings Corporation, jointly with the other Defendants, develops the

infringing Xfinity services and equipment and provides infringing receivers to its customers.

6. Comcast Business Communications, LLC is a Delaware limited liability company with a principal place of business at One Comcast Center, 1701 John F. Kennedy Blvd., Philadelphia, PA 19103. On information and belief, Comcast Business Communications, LLC is a subsidiary of Comcast Corporation. Comcast Business Communications, LLC may be served with process in this action by and through its registered agent, C T Corporation System, 289 S Culver St, Lawrenceville, GA 30046-4805. On information and belief, Comcast Business Communications, LLC, jointly with the other Defendants, develops the infringing Xfinity services and equipment and provides infringing receivers to its customers.

7. Comcast of CT/GA/MA/NH/NY/NC/VA/VT, LLC is a Delaware limited liability company with a principal place of business at One Comcast Center, 1701 John F. Kennedy Blvd., Philadelphia, PA 19103. On information and belief, Comcast of CT/GA/MA/NH/NY/NC/VA/VT, LLC is a subsidiary of Comcast Corporation. Comcast of CT/GA/MA/NH/NY/NC/VA/VT, LLC may be served with process in this action by and through its registered agent, C T Corporation System, 289 S Culver St, Lawrenceville, GA 30046-4805. On information and belief, Comcast of CT/GA/MA/NH/NY/NC/VA/VT, LLC, jointly

with the other Defendants, develops the infringing Xfinity services and equipment and provides infringing receivers to its customers.

### **JURISDICTION AND VENUE**

8. This Court has exclusive subject matter jurisdiction over this case pursuant to 28 U.S.C. §§ 1331 and 1338(a) on the grounds that this action arises under the Patent Laws of the United States, 35 U.S.C. § 1 et seq., including, without limitation, 35 U.S.C. §§ 271, 281, 284, and 285.

9. On information and belief after reasonable investigation, Comcast operates at least nine Xfinity stores physically located in the Northern District of Georgia as well as at least four Comcast Service Centers.<sup>1</sup> On information and belief after reasonable investigation, Comcast conducts its regular, established business at these locations. On information and belief, these Xfinity stores provide infringing products to and receive payment from customers in this District.<sup>2</sup> Comcast lists these Xfinity stores on its website and identifies them as places where customers can obtain infringing products. On information and belief after reasonable investigation, Comcast owns or leases the premises where these Xfinity stores are located. On information and belief after reasonable investigation,

---

<sup>1</sup> <https://www.xfinity.com/support/service-center-locations/>.

<sup>2</sup> <https://www.xfinity.com/support/articles/find-a-comcast-service-center>.

Comcast staffs these Xfinity stores with Comcast employees, many of whom live within this District.

10. This Court has general and/or specific personal jurisdiction over Comcast Corporation, and venue is proper, in part because Comcast Corporation, directly and/or in combination with its subsidiaries and/or through its agents, does continuous and systematic business in this district, including by providing infringing products and services to residents of the Northern District of Georgia, by providing infringing products and services that it knew would be used within this District, and/or by participating in the solicitation of business from residents of this District.

11. In addition, upon information and belief, Comcast Corporation, directly or through its subsidiaries, places infringing products in the stream of commerce, which it directs at this District with the knowledge and/or understanding that such products will be sold, leased, or otherwise provided to customers within this District. In addition, upon information and belief, Comcast Corporation, directly or through its subsidiaries, employs individuals within the Northern District of Georgia (including employees who provide infringing products and services to customers here) and maintains offices and facilities here. Comcast Corporation, directly or through its subsidiaries, operates highly

commercial websites through which it offers for sale or lease products and/or services to customers in this District, including products and services that, upon information and belief, infringe the Asserted Patent.

12. This Court has general and/or specific personal jurisdiction over Comcast Cable Communications, LLC, and venue is proper, in part because Comcast Cable Communications, LLC, directly or in combination with other Comcast entities and/or through its agents, does continuous and systematic business in this District, including by providing infringing products and services to residents of this District, by providing infringing products and services that it knew would be used within this District, and/or by participating in the solicitation of business from residents of this District. In addition, upon information and belief, Comcast Cable Communications, LLC, directly or in combination with other Comcast entities and/or through its agents, places infringing products in the stream of commerce, which it directs at this District with the knowledge and/or understanding that such products will be sold, leased, or otherwise provided to customers within this District. In addition, upon information and belief, Comcast Cable Communications, LLC, directly or in combination with the other Comcast entities and/or through its agents, employs individuals within the Northern District of Georgia (including employees who provide infringing products and services to

customers here) and maintains offices and facilities here. Comcast Cable Communications, LLC, directly or in combination with the other Comcast entities and/or through its agents, operates highly commercial websites through which it offers for sale and/or lease products and/or services to customers in this District, including products and services that, upon information and belief, infringe the Asserted Patent.

13. This Court has general and/or specific personal jurisdiction over Comcast Cable Communications Management, LLC, and venue is proper, in part because Comcast Cable Communications Management, LLC, directly or in combination with other Comcast entities and/or through its agents, does continuous and systematic business in this District including by providing infringing products and services to residents of this District, by providing infringing products and services that it knew would be used within this District, and/or by participating in the solicitation of business from residents of this District. In addition, upon information and belief, Comcast Cable Communications Management, LLC, directly or in combination with other Comcast entities and/or through its agents, places infringing products in the stream of commerce, which it directs at this District with the knowledge and/or understanding that such products will be sold, leased, or otherwise provided to customers within this District. In addition, upon

information and belief, Comcast Cable Communications Management, LLC, directly or in combination with the other Comcast entities and/or through its agents, employs individuals within the Northern District of Georgia (including employees who provide infringing products and services to customers here) and maintains offices and facilities here. Comcast Cable Communications Management, LLC, directly or in combination with the other Comcast entities and/or through its agents, operates highly commercial websites through which it offers for sale and/or lease products and/or sales of services to customers in this District, including products and services that, upon information and belief, infringe the Asserted Patent.

14. This Court has general and/or specific personal jurisdiction over Comcast Holdings Corporation, and venue is proper, in part because Comcast Holdings Corporation, directly or in combination with other Comcast entities and/or through its agents, does continuous and systematic business in this District including by providing infringing products and services to residents of this District, by providing infringing products and services that it knew would be used within this District, and/or by participating in the solicitation of business from residents of this District. In addition, upon information and belief, Comcast Holdings Corporation, directly or in combination with other Comcast entities and/or through

its agents, places infringing products in the stream of commerce, which it directs at this District with the knowledge and/or understanding that such products will be sold, leased, or otherwise provided to customers within this District. In addition, upon information and belief, Comcast Holdings Corporation, directly or in combination with the other Comcast entities and/or through its agents, employs individuals within the Northern District of Georgia (including employees who provide infringing products and services to customers here) and maintains offices and facilities here. Comcast Holdings Corporation, directly or in combination with the other Comcast entities and/or through its agents, operates highly commercial websites through which it offers for sale and/or lease products and/or services to customers in this District, including products and services that, upon information and belief, infringe the Asserted Patent.

15. This Court has general and/or specific personal jurisdiction over Comcast Business Communications, LLC, and venue is proper, in part because Comcast Business Communications, LLC, directly or in combination with other Comcast entities and/or through its agents, does continuous and systematic business in this District including by providing infringing products and services to residents of this District, by providing infringing products and services that it knew would be used within this District, and/or by participating in the solicitation of

business from residents of this District. In addition, upon information and belief, Comcast Business Communications, LLC, directly or in combination with other Comcast entities and/or through its agents, places infringing products in the stream of commerce, which it directs at this District with the knowledge and/or understanding that such products will be sold, leased, or otherwise provided to customers within this District. In addition, upon information and belief, Comcast Business Communications, LLC, directly or in combination with the other Comcast entities and/or through its agents, employs individuals within the Northern District of Georgia (including employees who provide infringing products and services to customers here) and maintains offices and facilities here. Comcast Business Communications, LLC, directly or in combination with the other Comcast entities and/or through its agents, operates highly commercial websites through which it offers for sale and/or lease products and/or services to customers in this District, including products and services that, upon information and belief, infringe the Asserted Patent.

16. This Court has general and/or specific personal jurisdiction over Comcast of CT/GA/MA/NH/NY/NC/VA/VT, LLC, and venue is proper, in part because Comcast of CT/GA/MA/NH/NY/NC/VA/VT, LLC, directly or in combination with other Comcast entities and/or through its agents, does continuous

and systematic business in this District including by providing infringing products and services to residents of this District, by providing infringing products and services that it knew would be used within this District, and/or by participating in the solicitation of business from residents of this District. In addition, upon information and belief, Comcast of CT/GA/MA/NH/NY/NC/VA/VT, LLC, directly or in combination with other Comcast entities and/or through its agents, places infringing products in the stream of commerce, which it directs at this District with the knowledge and/or understanding that such products will be sold, leased, or otherwise provided to customers within this District. In addition, upon information and belief, Comcast of CT/GA/MA/NH/NY/NC/VA/VT, LLC, directly or in combination with the other Comcast entities and/or through its agents, employs individuals within the Northern District of Georgia (including employees who provide infringing products and services to customers here) and maintains offices and facilities here. Comcast of CT/GA/MA/NH/NY/NC/VA/VT, LLC, directly or in combination with the other Comcast entities and/or through its agents, operates highly commercial websites through which it offers for sale and/or lease products and/or services to customers in this District, including products and services that, upon information and belief, infringe the Asserted Patent.

### **FACTUAL BACKGROUND**

17. Plaintiff is the owner by assignment of all right, title and interest in and to United States Patent Number 6,788,882 B1, entitled “Systems and Methods for Storing a Plurality of Video Streams on Re-Writable Random-Access Media and Time- and Channel-Based Retrieval Thereof” (“the ’882 Patent”), including the right to sue for all past, present, and future infringement, which assignment was duly recorded in the United States Patent and Trademark Office (“USPTO”).

18. A true and correct copy of the ’882 Patent is attached hereto as Exhibit A. The ’882 Patent is incorporated herein by reference.

19. The application that became the ’882 Patent was filed on April 17, 1998, and was assigned U.S. patent application number 09/062,022 (“the ’022 Application”).

20. The ’882 Patent issued on September 7, 2004, after a full and fair examination by the United States Patent Office.

21. The ’882 Patent is valid and enforceable.

### **SUBJECT MATTER OF THE ’882 PATENT**

22. The ’882 Patent recognized that, by the time the ’022 Application was filed in 1998, television viewers wanted to have greater control over their viewing experience: “As viewer habits change and the choice of programming (channels)

grows, people want to adapt television programming to their schedule, rather than the other way around.” [’882 Patent 1:20-23].

23. Moreover, by the time the ’022 Application was filed in 1998, viewers had grown accustomed to the capability of VCRs to record a program for later viewing. However, VCRs offered limited flexibility in how a user could record programs, advance forward or backward within a program, and “surf” between programs:

The VCR, although extremely successful as a consumer device, has limited flexibility when the number of television channels increases. Also, the consumer has to remember to program the VCR to record the event. Commercially-available VCR+® technology has somewhat facilitated the process, but still requires tape management, scheduling and remembering when and what to program.

One frequently employed method of viewing television involves rapidly browsing (“surfing”) television channels to search for a program of interest, to watch several programs at once, or to skip ubiquitous commercials. Surfing has become even more popular given the advent of cable and satellite television, wherein many dozens of channels are available for viewing at any given time. On currently available single-screen systems, surfing must be done in real time and as time progresses. In other words, a user can watch one channel and record another channel on a VCR, but the user cannot watch a recorded program and simultaneously record another (unless the user is endowed with multiple VCRs).

[’882 Patent at 1:24-48.]

24. The ’882 Patent recognized that these problems required a technical solution:

Therefore, what is needed in the art is a fundamental increase in the flexibility afforded a user in viewing programs aired over multiple channels. Moreover, what is needed in the art is a way of harnessing the power of digital computers to give the user more power in determining what he wants to watch,” in order to provide “a fundamental increase in the flexibility afforded a user in viewing programs aired over multiple channels.

[’882 Patent at 1:54-60.]

25. The ’882 Patent provides technical solutions to these and other deficiencies in the prior art: “To address the above-discussed deficiencies of the prior art, the present invention provides a digital video recorder (DVR) and a method of operating the same.” [’882 Patent at 1:63-65.]

26. For example, the ’882 Patent addresses one deficiency in the art by providing that:

In one embodiment, the DVR includes: (1) a mass data storage unit that concurrently and continuously receives and digitally stores a plurality of channels and (2) a channel viewer, coupled to the mass data storage unit, that retrieves a portion of one of the plurality of channels from the mass data storage unit based on a received command and presents the portion on a video display device.

[’882 Patent at 1:65-2:5.]

27. As the ’882 Patent explains, this addresses a deficiency in VCR technology:

The digital video recorder of the present invention remedies the shortcomings of traditional video recording methods. The DVR does this by combining an essentially limitless (only limited by the cost of the equipment) capability concurrently to record a number of channels on a

random-access medium while being able concurrently to play back any of these channels for viewing.

[’882 Patent at 2:9-16.]

28. The specification identifies other technological deficiencies addressed by the subject matter disclosed and claimed in the ’882 Patent. For example, “In one embodiment of the present invention, the mass data storage unit stores the plurality of channels together with time information to allow the plurality of channels to be synchronized with respect to one another. The time information can synchronize corresponding portions of the plurality of channels that the DVR recorded concurrently.” [’882 Patent at 2:63-3:1.] The ’882 patent further discloses that, in this one embodiment, the synchronization of recorded programs “allows a user to surf synchronized, prerecorded channels in a way that imitates the real-time channel surfing that the prior art constrains the user to do.” ’882 patent at 3:2-4.

29. In connection with the Detailed Description of Illustrative Embodiments, the specification describes that in such embodiments a user’s “surfing” is not limited to browsing back and forth between the point of live broadcast as in prior-art technology. For example, in one embodiment, the user could browse between stored programs at points in time earlier than the point of

live broadcast: “[I]t is, in principle, possible to support channel surfing at any moment later than the start of the recording process.” ’882 patent at 5:26-28.

30. Moreover, the specification discloses that, in one embodiment, a user could navigate through the stored programs between which he is flipping back and forth: “As will be described in greater detail below, the requirements for such a system also enable ‘catch-up viewing’ (joining a certain program in mid-broadcast and then, through skipping of commercials, catching-up with the real-time broadcast).” ’882 patent at 5:31-35. Or, as stated elsewhere, “[t]he user can freely time surf in either time direction. The only time-boundaries are that one cannot surf past now into the future (on higher time side), and the current time minus the total recorded time (on the lower time side). Both of these boundaries move with time.” ’882 patent at 5:52-57.

31. Moreover, the specification describes, in connection with one embodiment, that synchronization allows a user to switch from one channel at a given time to another channel at a different time:

The approach described below provides for the rapid retrieval of variable data rate digital data, such as MPEG II compressed video. It also provides synchronization of the data streams, to allow rapid switching from one channel at a given time to another channel at a different time. This feature is advantageous in supporting channel surfing in the past (recorded video).

’882 patent at 14:40-46.

32. The independent claims of the '882 Patent address technological deficiencies of the prior art such as those described above.

33. Claim 1 of the '882 Patent claims:

1. A digital video recorder (DVR) for recording a plurality of television broadcast programs, comprising:

a mass data storage unit that concurrently and continuously receives and digitally stores a plurality of television broadcast programs together with time information to allow said plurality of stored television broadcast programs to be synchronized with respect to one another; and

a channel viewer, coupled to said mass storage unit, that retrieves a portion of one of said plurality of stored television broadcast programs from said mass data storage unit based on a received command and presents said portion on a video display device.

34. Claim 19 claims:

19. A method of operating a digital video recorder, comprising the steps of: receiving a plurality of television broadcasts, each television broadcast including a video signal; and

concurrently and continuously digitally storing said plurality of television broadcasts on a mass data storage unit and storing said plurality of television broadcasts together with time information to allow said plurality of stored television broadcasts to be synchronized with respect to one another upon replay of said stored television broadcasts.

35. The independent claims of the '882 patent recite technical solutions to technical problems, including, with respect to claim 1, a “digital video recorder . . . comprising: a mass data storage unit that concurrently and continuously receives and digitally stores a plurality of television broadcast programs together with time

information to allow said plurality of stored television broadcast programs to be synchronized with respect to one another” and, with respect to claim 19, a “method of operating a digital video recorder, comprising the steps of . . . concurrently and continuously digitally storing said plurality of television broadcasts on a mass data storage unit and storing said plurality of television broadcasts together with time information to allow said plurality of stored television broadcasts to be synchronized with respect to one another upon replay of said stored television broadcasts.” These claim elements were not well-understood, routine, or conventional when the inventors of the ’882 Patent filed their patent application.

36. The subject matter disclosed and claimed in the ’882 Patent provides solutions to other deficiencies in the art, as well.

37. For example, the ’882 Patent discloses that in one embodiment, “the mass data storage unit stores the plurality of channels on a first-in first-out basis.” [’882 Patent at 2:44-45.] This addresses a technological limitation regarding the volume of content that can be stored. Claim 2 of the ’882 Patent also addresses this deficiency in the prior art.

38. In another example, the ’882 Patent discloses that “[i]n one embodiment of the present invention, the mass data storage unit stores the plurality of channels in separate files based on channel and timeslot identification.” [’882

Patent at 2:53-55.] This addresses a technological limitation of prior-art VCR technology regarding tape management and accessing recorded content. Claim 3 of the '882 Patent addresses this deficiency in the prior art.

39. In yet another example, the '882 Patent discloses that “[i]n one embodiment of the present invention, the channel viewer comprises a channel guide database containing pointers to locations in the mass data storage unit.” The '882 Patent states that this “allows individual programs to be selected efficiently.” [’882 Patent at 3:9-10.]

40. Similarly, the '882 Patent states that “[i]n a more specific embodiment, the channel guide contains links to locations in the mass data storage unit. The links may be hypertext links, wherein a user can initiate a retrieval and presentation of a particular portion of a selected channel simply by clicking on a particular location in the channel guide.” [’882 Patent at 3:5-8, 14-19.]

41. Various claims of the '882 Patent address this deficiency in the prior art regarding the efficiency of selecting programs, including programs being stored on the DVR (e.g., claims 5, 7, 20, and 22).

42. The subject matter disclosed in the '882 Patent also addresses the deficiency in prior-art technology relating to advancing or rewinding through

programs. For example, the '882 Patent describes harnessing the power of digital computers to provide the user more flexibility in advancing through programs:

In one embodiment of the present invention, the channel viewer presents the portion nonlinearly. Sections of the portion may therefore be skipped, repeated, reversed, randomized or presented at a rate that differs from real-time. In an embodiment to be illustrated and described, commercials or other tedious content may be skipped to advantage. This gives rise to viewing concepts, such as “catch-up viewing” as described hereinafter. [’882 Patent at 3:31-38.]

43. The '882 Patent further discloses that “[i]n one embodiment of the present invention, the DVR selectively moves by one commercial time unit (CTU) within the one of the plurality of channels in response to the received command. The DVR can move forward or backward. In a more specific embodiment, the received command is employable to achieve catch-up viewing.” [’882 Patent at 4:16-21.]

44. These technological improvements to the prior art providing greater flexibility in advancing through a television program are reflected in various claims of the '882 Patent, including claims 9, 17, 18, 24, 32, and 33.

45. The subject matter disclosed in the '882 Patent also addresses a technological limitation relating to the volume of content that may be stored on a DVR. For example, the '882 Patent discloses that “[i]n one embodiment of the present invention, the mass data storage unit receives, digitally compresses and

digitally stores the plurality of channels.” [’882 Patent at 3:39-43.] This technological problem with the prior art is also addressed in the claims of the ’882 Patent, including claims 10 and 25.

46. Plaintiff notified Comcast of the ’882 Patent and its infringement of the ’882 Patent 14 months prior to filing this action. In that interim, Defendants have not responded to Plaintiff’s offer to discuss an amicable resolution of Plaintiff’s claims.

#### **COUNT I – DIRECT PATENT INFRINGEMENT**

47. Plaintiff realleges and incorporates by reference the allegations set forth above, as if set forth verbatim herein.

48. Defendants have directly infringed the ’882 Patent in violation of 35 U.S.C. § 271(a) by making, importing, using, selling, or offering for sale in the United States products that embody the patented invention, including at least claims 1-3, 5-9, 12, 13, 16-24, 27, 28, and 31-33.

49. Defendants’ infringing Accused Products include, without limitation, the DVRs described in Comcast’s Dual-Tuner HD-Capable DVR Guide, the DVRs described in Comcast’s HD DVR Brochure, the Xfinity X1, the Motorola DCT-6412, the Motorola DCH-6416, the Motorola DCX-3400, and the Motorola DCT-

3501, as well as other as-yet-unknown products that satisfy each element of one or more asserted claims.

50. The Accused Products satisfy each and every element of each asserted claim of the '882 Patent, as detailed in the preliminary claim charts attached hereto as Exhibits B-H and incorporated herein by reference, either literally or under the doctrine of equivalents.

51. Defendants condition the receipt of benefits from using the Accused Products for which users have paid upon the use of the DVR recited in claims 1-3, 5-9, 12, 13, and 16-18, as well as performance of the steps of the methods recited in at least claims 19-24, 27, 28, and 31-33 of the '882 Patent.

52. For example, Defendants not only instruct users to use the Accused Products in an infringing manner, but if users want to obtain the benefits of the Accused Products for which they are paying, they must necessarily operate the Accused Products in an infringing manner due to the design of the Accused Products.

53. Therefore, the acts of the Accused Products' users in using the DVR recited in claims 1-3, 5-9, 12, 13, and 16-18, as well as in performing the steps of at least method claims 19-24, 27, 28, and 31-33 of the '882 Patent, are attributable to Defendants.

54. Defendants' infringing activities are and have been without authority or license under the '882 Patent.

55. Plaintiff is entitled to recover from Defendants the damages sustained by Plaintiff as a result of Defendants' infringing acts in an amount subject to proof at trial, which, by law, cannot be less than a reasonable royalty, together with interest and costs as fixed by this Court, pursuant to 35 U.S.C. § 284.

**JURY DEMAND**

56. Plaintiff hereby demands a trial by jury of all issues so triable pursuant to Fed. R. Civ. P. 38.

**PRAYER FOR RELIEF**

Plaintiff respectfully requests that the Court find in its favor and against Defendants, and that the Court grant Plaintiff the following relief:

- A. An adjudication that one or more claims of the '882 patent have been infringed, either literally and/or under the doctrine of equivalents, by Defendants;
- B. An accounting and an award to Plaintiff of damages adequate to compensate Plaintiff for the Defendants' acts of infringement, together with pre-judgment and post-judgment interest and costs pursuant to 35 U.S.C. § 284;

- C. That this Court declare this to be an exceptional case and award Plaintiff its reasonable attorneys' fees and expenses in accordance with 35 U.S.C. § 285; and
- D. Any further relief that this Court deems just and proper.

This 14<sup>th</sup> day of June, 2019.
